★ **HOLLYWOOD MONSTERS GUESTBOOK** ★

Hey there all of you SUPERFREAKS! Thanx for taking the time out of your busy and oh so glamorous lives to visit Hollywood Monsters... There's ten tons of trashy rockin' glamour to come- so STAY TUNED! XOXOXOXOXOXO, Budgie

Thee Hollywood Monster

Rockin' Sockin' Los Angeles, CA USA - Sunday, September 26, 1999 at 01:25:12 (EDT)

Hey Budgie, just checked out your updated website and really like it! The club scene section will come in handy, my being the prince of nite life and all. I will have to cruise your site while putting on the leather jeans and platforms, prior to one of my debaucherous evenings out. And love the spike gear. Could definitely build a wardrobe around a spiked cod piece. Peace, Sammy

So, you want ranting, raving & gossip, huh? Well, the trash must be saved for later! I am too overwhelmed with cyber-festivity to respond with mere trash! For all you overzealous, superdeluxe freaks of anything-BUT-nature out there- you must, must, must know that the Divine GlamGod who spawned this UltraMonstrosity of sex, sin & debauchery is my FAVORITE creature walking the planet! Makes my world spin in a zillion brilliant rockin' & rollin' shades of rainbow glitter! You would do well to visit this Vortex of Vicious Vanity, and do it often... It's good for you- Like alcohol in various synthetic flavors & colors, and entirely too much caffeine & more ooey gooey cheese dip than you know how to consume! Will the wonders of this twisted ball of confusion never cease? GOOD!!! You want more? Just ask...

Very cool site! Now check out Myra Breckinridge, the greatest of hollywood monsters, at <http://www.geocities.com/WestHollywood/Chelsea/8214/> If you're not familiar with her monster status, stop by the infirmary!

Yummy site. I bookmarked it and the club list. Wouldn't it be fun to have a wedding reception at Makeup? Gee, all I'd need is a husband. Matrimonial prospects are invited to look at my web site and propose to me in my guestbook.

Mega-monster Myra Breckinridge will be in Cinemax late TONIGHT (1 a.m. Monday, 10/11). See Raquel Welch at her bitchiest as Myra, along with Mae West and the then-unknown Farrah Fawcett and Tom Selleck. It's a wild one, including Myra's dildo rape of one of her handsome young students.

Hey Lickety Leather Lover... So Rocky Anderson won for SL mayor... promises to keep clubs open till 6am... yeah right... nice thought though... SLC is same as it always was plus some new train tracks and a few million more mormons... but the fire breathing business is good for me.. making money and seeking sponsors... I am the fire show for hire in this town (couldnt be because I am the only fire performer that has her shit together, plus big tits! Weeee) and I LOVE IT! Beware: I am set to join you in CA (San Diego) Aug of 2000... be afraid... The site kicks ass, I am a bitch for not seeing it sooner!

Horney Pages saved my life. When I got off the bus on hollywood blvd,I had tripped over some, what looked like a male in girls clothing. Upon regaining my stride. I picked up your Hornry pages.wow! Having had it partial my whole travel here to Hollywood to become a star.I new exactly what to do. After I showed it who was boss. I cleaned myself up and barrowed the clothes that , confirmed man wearing. The next thing I knew I was on behind the music, telling my survival tale of sex, drugs & self mulestation. I did it! And it would not be so with out the help of Horney pages. Thanks! I owe you everything! (But don't quote me).

And on that note- if you're so fucking brilliant yourself, why the need for an anonymous post?

HEY BUDGIE, I AGREE WITH SOD FROM HEAVEN, APOLLO STARR IS STUPID AND LAME, NOW IF HE ACTUALLY COULD BE WITTY IT WOULD BE GREAT, BUT I'M SURE HE WAS A STUPID DUMB BLONDE IN A PAST LIFE. OH' AND YOU (STARR) REFER TO WOMEN AS BITCHES, BUT I WOULD LIKE TO SEE THE SIZE OF YER DICK. WHAT DO YOU LIKE TO FUCK, ANYWAY? I NEVER HEARD ABOUT YOU BEFORE TOO, SO YOU HAVE TO BE A NOBODY INDEED. HOW MANY DICKS YOU SUCK TO GET ON YOUR OH-SO-IMPORTANT GUESTLISTS ? YOU KNOW NOTHING ABOUT MUSIC, BUT YOU'RE NOT THAT DIFFERENT FROM COYOTE SHIVERS AND ALL THOSE PROMOTERS WHO ARE JUST HERE TO MAKE A BUCK. TRY TO BE LIKE JOSEPH BROOKS: OK' HE'S THERE TO MAKE A BUCK, BUT AT LEAST HE DO STUFF. CAN'T BELIEVE HOW TAIMED DOWNE CAN ACTUALLY HUMILIATE HIMSELF TO TAL TO YA. ANYWAY, KEEP THE GOOD WORK BUDGIE' LOVE YER SITE' EXCEPT FOR LOSERS LIKE APOLLO. LUV-LUV.

I just wanna clarify somethin'.... I was ever-so lucky to have run into Apollo in the men's bathroom last night- and me, I couldn't help but notice that the TRUE HOLLYWOOD MONSTER resides in Apollo's pants.... It was SO BIG- I could've choked on it.... PLEEEEEEEEEEEEEEEEEAAZE... Get over it kids! I'm glad you like the site Miss Tinguette, but I'm not impressed with all the faceless rants directed at my fellow monsters.... People are entitled to their opinions and I'm not a big fan of censorship, but if you don't have the balls to level the playing field by leaving your real name and email address, don't bother making the post... If it weren't for guyz like Apollo, Coyote, Taime, and countless others- you wouldn't even be looking at this site... They've all been very supportive and instrumental in the perpetuation of this... And my past experience tells me that it's only a matter of time before people start sayin' the same crap about me..... Now, if you can't play nice (or at least give us your real name), don't play at all..... XOXOX P.S. The thing about sucking people off to get on their guest lists- I've already tried that and it doesn't work..... ;P

This is for SOD IN HEAVEN: Who the fuck died and made you boss? You little spineless shit....you're probably just pissed off cause you have to wait at the back of the line to get in everywhere! Why don't you just say who you are instead of being a BIG PUSSY? You are the kind of person that is dying to get in with the "IN" crowd but can't cause you're such a loser. Why else won't you sign your name. All those people you mentioned don't even give someone like you the time of day. But the thing is you know so much about everybody you're probably on the outside looking in! I feel sorry for you. And talking about dj's what do you know what it takes to keep a crowd happy.....you're always OUTSIDE!!!!!!!!!!!!!!!!!!!!!!So while you're being a whiney ass the rest of us are having the time of our lives!And guys like you that talk about small dicks have the SMALLEST OF ALL!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!Dayle from Scream

Hey kidlets, I just want to lay down a brief little glittering secret. We need to disable the guitar social morality. The glamour of community is encased in one small radius, we need to market ourselves massive like a super nova heralding the return of Nick RHODES, David Sylvian and Ginger Spice. I fail to believe we are all bound to the realms of cooperate punk, its all about the perception of music that is rock and roll not the guitar. Hurray Hurray key board and New Romantic Electricity. Because lets face it we are like Jem and The Holograms so eloquently put, Truly Outrageous....

To tell most people you're going to be kicking some disco tunes and they'll look at you with a strained, sympathetic smile. Unless you're making some kind of humorously ironic, post-Tarantino retro style statement, doing your bit to promote the "d" word is traditionally about as socially acceptable as boasting about contagious disease. Strange really, considering that so much disco is the cornerstone upon which modern dance music was built. That the New York disco scene of the early 1980's, way post-Saturday Night Fever, is the moment in time at which dance became a bona fide religion. It's the point at which old soul style slapped palms with new school dance. Back in that particular day, disco had a point to it. A sense of purpose, in as much as it was still close enough to its soul/latin roots to be of the black soul scene. This was a word beyond The Bee-Gees, before computers and the EUROPE influence took it over, when disco was about heart and soul and as funky as hell. When it wasn't quite a word unto itself but was an enormous aspect of something that was entirely cool. However, it is also a word that also formed a gateway to some spectacular music of modern times. The second wave of disco underground which played its part in Hip Hop, house and dance and today stays alive through the art of the sampler.

Hello Budgie! You have really added some interesting things here. Who wrote that novella? That's a nice pic of Apollo, very lovely, good chunking. Apollo, you must give Brandon a smooch for me, or just a shot of Stoli, even though he's a Guido from Staten Island, but that's not always a bad thing, Massapequa would be worse.

Yawn...as it seems my eyes are opening to see how wide spread this supposed scene is. You dont need a space ship to see that everyone around values people on there guitar sexuality swag. Hmmm, yeah babes Im not your drug induced fantasy thing but hey I am your friend. Tinsle kissed obsessions like electro lust that can silence any eyeliner clad glam doll.Thats the real validation, Spice Girl clarity hangs on longer than some Ziggy philosphy. Both wore big ideals but only one endured the torment of popularity. Nurse that black magic carefully, Wage your battle carefully. If one was asked to take to the stage in a steller fit of neo glitter rock. Then the chance should be manifested in the flesh...granted if prefabricated screams were traded for a voice laced with persuasion tinted eleoquence then its musicallt unfit? Wrong its the new day, its a collabration of the gods that paint the cities earthly not mere men attempting to be gods.

Ekkk... people I feel are treated secondary due to situation. Its a sad little bubble we exist here in L.A. I am sick of people getting approval account of there contacts. It means nothing. When things fall through, a strange scenario unfolds especially when weird matters crystalize like last years resentment. I think people are not disposable even if the audience demands it. Clubs should be a place to find solace and a little piece of momentarilly bliss not nostaglic stabs at trying to be someone your not. Paint your face anyway you can babes, underneath the tattoos your soul still burns a beckon . Youre not the statuesque guitarist or fantastique club promoter if your art is geared for a manipulating a scene instead of inventing one. People do fall from from grace oui, but make sure its set for a real cause not the issue of absence. Acquaintences are in abundance here but not friends....

Hi, all. I've been using your site as a resource for a work visit in October. I'm a painter and I focus on the portrayal of Subcultures in my work, working initially from photographs into oil paintings. I have a question for you, though, if you can possibly help me. Seeing that most of the clubs are for 21+, where will I be able to find Goth kids in LA? The younger section of the Goth/Rock subcultures are my main focus of attention but it would help knowing where to find them. Thanks a lot! Great site, by the way :)

Why is it that a lot of so called Hollywood dj's spin compact disc's and don't attempt to match beats by not using the pitch control. To call yourself a dj and spin at such great club as Viper Room, Bar Sinister, and Bang. By not blending the tracks together and playing the tracks to the end just takes all the energy out the door. I have also notice some dj's only cue up the next song and don't even use their headphones. And I can't help but notice these guys don't even practice because their skills before the club or at home. In other words just playing one track after another isn't a true dj. The reason that I am not using any names is to protect the people that I know from embarresment.

So good to know there is actually a home out there for us Sinners and Vamps!!! I LOVE LA!! and Hollywierd, where the freaks come out at night, and I wouldn't mind taking a few (Coyote, Taime, Apollo, etc.) home with me, it's you boys that make gals like me fall from grace and innocence. Apollo, baby love it! Coyote, well...I just wanna get all hot & bothered with you, coupled with some wild and kinky experimentations...ROCK IS NOT DEAD!

So has anyone gone to makeup lately that club has gone DOWN hill! "DJ" Jason lavitt totally sucks why the hell would anyone go to a "glam" club to listen to whitesnake and motley crue? and whats with him not knowing the first thing about blending the songs together? i dont know the guy but really, people close to him need to stop kissing his ass and teach him how to dj. and the men's room nazi attendant won't even let women in there anymore. kind of wierd for a "glam" club.

Charly V. was the only person besides myself to notice this.It doesn't take a trained ear to hear the it.Jason sucks, and I'm sure he is suprised about his success as I'm.And shouldn't try to over book himself.I wish would go back to working at vinyl fetish.This is not to put anyone down,but he really should try to listen to himself from a objective point.The audience is listening

Well..Well..Well, somebody actually talking like they have a brain finally, (i.e.) Charley.v! I have been ranting about this plastic scene for well over a year and half now. Every time i turn around the words rock nroll, glam, and punk are just thrown around like aging tumbleweeds. So you wanna talk about these D.j.'s heh? First off i would like to chat about that fuckin idiot Apollo Starr. This has to be the biggest fuckin fluke since sea monkeys. The last time i seen this guy D.j. he was spinning garbage like Foriegner, and Foghat. Since when do we let trainhoppers like this invade the scene with such disrespect? Now how about that fuckin jerk-off Coyote Shivers(nice name), he has been spreading his poison around Hollywood for the last year and half now. Spinning Motley Crue, and other 80's throwaways is just about as lame as you can get! This is the time to stand up...time to choose what side you are on man! take this dying horse and put it out of its misery!!! This is the time to bring reality back..post your comments here ,dont be a sheep!!

APPLAUDES...APPLAUDES for the pseudo stars of Hollywood. Its time for the new movement to take effect. The really souless dribble which dares to declare that Japan/Duran Duran/ Visage/O.M.D.Summon the courage to realize that the bestial cosmic forces which cause you to merge to everyones gigs and night spots. Come on and embrace the streamlined synth melodies of yesterday and the refinded now culture. And babes, once the rock star scenarios have become another "careless memory" then real popstars will deviate social culture.

For the record for the ignorant fools (charly V and his beat-matching, waiting-all-nite-in-line friend) that were saying how me and COYOTE don't match beats when we DJ, well..YOU CAN'T MATCH BEATS WITH ROCK AND ROLL MUSIC, DUMBASS!!, ROCK & ROLL IS NOT DEEP HOUSE AND TECHNO, LIKE THE KIND OF SHIT THAT YOUR USED TO LISTENING TO AND DJ'ING!!! also, IF YOU DON'T LIKE LISTENING TO FOREIGNER AND FOGHAT, DON'T GO TO CAMARO ON MONDAYS AT THE VIPERROOM, DUMBASS!! what other kind of music do you think I would play at a club called CAMARO?!! Stick to your favourite clubs like GIANT, ARENA, and FLORENTINE GARDENS, and stay the fuck out of our scene if you hate it so much!!! P.S. Jealousy is not becoming. See you all at MAKEUP saturday nite!! love and kisses, Starr.

A little note to all you assholes-well mainly just to that shit talking prick charly v and whoever else...This is HOLLYWOOD sugar, not fucking San Francisco. We do not rave, we do not play "phat beats". We are and always will be all about ROCK n ROLL!!! There are a ton of trendy techno clubs throughout LA, and coming to Hollywood expecting that is just a result of your own lack of intelligence. Coyote, Apollo, etc. come from the old school of rock, which is a hell of alot better than that house shit that infects the nightlife. Rock n Roll clubs are the foundation of the Hollywood scene, and will be as long as it stands. So, charly v, instead of bitching and moaning, and cowardly talking shit on this website, why don't you try NOT going to Makeup, Camero, Cherry, etc. Then you won't have anything to complain about. I am not a fan of techno/house, I like rock n roll just fine and I don't come into your clubs, so try staying the hell out of mine, you jackass!

well this is the high school mentality page, no? So you all come here to vent your personal shit about people you don't like. Hiding behind the internet takes such courage. You are the exact people who make hollywood look like the shallow town they say it is. Advice to the children: Confront your enemy for he may be a freind in diguise. "ATTENTION: APOLLO STARR". Hey Boy.....You like to talk alot of shit on this board hiding behind the confines of your computer..heh? You talk on here via"Rock n Roll Rehab", telling your pathetic stories and adventures. You tell all these stories like you are totally hip, which is a complete lie!!!! I seen you at a party this weekend...yea, you remember boy! The party on the 4th of July in that backyard. You looked so fucking frightened, such a little scenester. Yea...We were watching you, We were gonna wait for you outside the gate when you were leaving...to have a little heart to heart...know what i mean? But...to are dismay the fuckin pigs showed up and broke up the party, before we had a chance to meet!!! I really love all of shit you talk about bieng so in with everyone. This is a complete fabrication...your scene is completley plastic and fake!! You talk all this shit about how much you dig Rock n Roll and Punk, Glam Etc. But the ugly truth is ..you dont know shit about the scene or music that you are trying to exploit with your senseless and mundane stories....do you? The truth is ..Is that you are just some Little Trainhopping poseur that jumps from whatever is cool at the time to try to get people to justify your bullshit idenity! I cant believe you can sleep at night..knowing at any time someone like me just laughs at your silly ass. Your little group of friends are just as pathetic as you also...but that would be a whole different topic, so I will spare those who have the torturous task of listening to your useless rambling stories. Dont think that trainhopping poseurs like yourself can slip by un noticed man. Dont worry Apollo Starr we will meet very soon, to have a little chat! Oh yea...nice outfit you were wearing at the party, Trying so hard to look like us real Rockers.. but you just cant seem to pull it off man. Nice polyester jacket you bought on Melrose. Oh and tell your friend...The one with the cheesy KISS shirt on to lay off the pancake makeup!! See around pal.....

HEY LONELY BOY, i just wanted to say that for the record you are SOOOO cool getting your thrills by bashing people like me. Nobody even knows or cares who the fuck you are, so who really gives a shit what you say, anyways?!! besides, if your trying to bury me, then DON" T WRITE ABOUT ME, DUMBASS!! the more you write, the more people read, or do you not understand this concept? Don't blame me if no one gives a shit about you and doesn't include you on their guest lists, or in anything else that you are so desperately craving. Maybe if you left a real e-mail address i could counsel you on club/scene etiquette, which you are lacking in, and leave room on this guestbook for people who have something positive to say, instead of pathetic attempts at defamation just to try to make yourself look better. Guess what...it's not working, you worthless little maggot that tries to remain anonymous, sitting at home in front of your computer screen getting your jollies off everytime you see your entries in the guestbook!!! take a word of advice, GO AND GET A JOB YOU PATHETIC LOSER!! who else has the time to go on and on about someone that they hate? P.S. Maybe you'll see me waltz by you into the clubs, as you wait in line outside, ALL NITE LONG!!! love and kisses, APOLLO STARR (apollostarr@hollywoodmonsters.cc) PLEASE KEEP YOUR PATHETICS ATTEMPTS OF DEFAMATION OFF THE GUESTBOOK, DUMBASS, IT'S NOT GOING TO GET YOU LAID LIKE YOU THINK IT IS!!

LA, CA usa - Thursday, July 06, 2000 at 17:01:14 (EDT)

Dearest Lonely Boy, Thank you for the time and effort that you have put into your letter regarding Mr. Starr. We here at Apollo Starr Studios would love to thank you for once again proving the point that if you take that long drive from O.C. (or if you do live here in Hollywood and are still waiting in line to get into some lame club, which is worse) then wait in line to get into a club that you have too much time on your hands. Please try to refrain from getting angry at those that get to pass you by and leave before you even get in. P.S from the girl in the cheesy kiss shirt and way too much pancake on her face...(which by the way my name is Shawn, I am not so afraid to hide my identity)... what is the problem are you so fat that when you look at people and see their make-up all you see is pancake (ummmm food, quick go to the kitchen and grab a little snack there are still a few more lines in this)...are food and hate the only things on your mind? Or are you just angry that you got directions to Santa Monica instead of the studio...or maybe the candy you bought was just baking soda. HEY...I thought that Kiss was still cool would you mind coming over to my house and showing me what is cool to wear out so that I look really good waiting in line. With love a big fat cheesy kiss, Shawn

HEY, LONEY BOY, waste your pathetic rants on someone who actually gives a shit. thanks. -Apollo Starr P.S. (sorry, i just couldn't stop thinking about this one..)If you were in a "real" rock & roll band like you claim, wouldn't you be on tour across the country, shagging groupies in every city...instead of being 'bored' at your pathetic DAY JOB and coming up with ways of trying to be the "cool rebel" type in a '9pm slot' band that nobody will ever know about? Actually...PLEASE don't answer this question. The more you respond, the dumber you look, and I just can't take it anymore. LAST REQUEST: if anyone went to THE FORBIDDEN ZONE opening on saturday nite, e-mail me and let me know how it went (i.e. who,what,when,where,with who,did you get lucky? etc...) I want to throw it in my column(R&R REHAB or THE STARR SCENE). thanks.

SCREAM MON. JULY 17th

ENGINES OF AGGRESSION <<http://enginesofaggression.com>>

- Monday, July 10, 2000 at 19:08:31 (EDT)

Dear Budgie: Thought you might find this (below) interesting . . . I got it from a comparative religions study . . . apparently the Golden Tablets of Joseph Smith no longer exist, having been taken up to Heaven. Best wishes, Paul K. Or let's look at Joseph Smith, the founder of Mormonism. In 1827, Smith said that an angel named Moroni had shown him golden tablets that were inscribed in elaborate detail with the history of the ancient inhabitants of the Americas. This history, Smith claimed, included the complete and "true" gospel of Jesus, who, Smith said, had gone to the Americas after his death and resurrection in Jerusalem. Unfortunately for our search for proof, there has never been any shred of archaeological evidence to support Smith's account of the history of the Americas. Oh, Smith's followers would point to ancient Aztec or Incan ruins or Indian burial mounds and say there was the evidence, but not one non-Mormon archaeologist or scholar has ever found anything to lend even the slightest credence to their claims. And as for the golden tablets, Smith said that after he translated them an angel took them into heaven, so we don't have any physical evidence that there even were any tablets. There were eleven other people who said Smith had shown them the tablets, but all were either close friends or members of Smith's family, and the stories these witnesses told did not match in many of their important details. Fortunately though, the golden tablets were not the only documents that Joseph Smith translated. In 1835, after starting his religion, Smith acquired some ancient Egyptian papyri which he said were the lost books of Abraham and Joseph. At the time very few people knew how to decipher Egyptian hieroglyphics and so, just as with the golden tablets, Smith again relied upon God to give him the translation. Incidentally, Smith discovered a number of very interesting things from the papyri, including, he said, that black people were supposed to be servants and slaves to whites and Asians. Unlike the golden tablets, however, the Egyptian papyri were not taken to heaven by an angel, but were placed in a museum. Thanks to the discovery of the Rosetta stone, (endnote 1) Egyptologists were later able to translate Smith's papyri and determined that, far from being the books of Abraham and Joseph, they are actually copies of the EGYPTIAN BOOK OF THE DEAD and another book called THE BREATHING PERMIT OF HÔR. (endnote 2) While not nearly so sensational as promising to move a mountain, Smith's demonstration of his authority obviously met with no more success than had Mohammed's.

Hey Paul... WOW- that's a lot of religious history you've dug up there... And quite contrary to all the crap that was shoved down my throat as a kid... I'm happy to announce that I've managed to buy those plates (it was a late night dark alley transaction) and I've re-written them to suit my own needs... I'm starting my own religious cult to be known as "Cult of Budgie" and you can all start kickin' yer 10% down right now... ;) Good seein' ya the other night, Paul... Hope all is well with the Pikachu's...

Well, thanks to all who showed FORBIDDEN ZONE was abig hit last Saturday. Everyone fell in love with the decor at the new venue and had a blast. The "who's who" all arrived and looked fabulous. Apparently we have a horny little Saturday night going here, as there were many bare tities in the VIP rooms and lots of tounge a swappin'. Security even caught one nasty little couple fucking in one of the rooms. Of course, they did thier job and had to stop the free show, but they all named me Cleo thier new hero for bringing such a wild yet easy crowd to the club. When asked by the owners to describe the type people and vibe that will be making this new club, I simply quoted from the book of modern poet C. Shivers by saying "Sex and Drugs and Fags and Rock n' Roll". Our new website WWW.FORBIDDENZONE.COM is being put together as we speak by famous PHOTO TIM and will be up this Thursday with lots of pics. You can also reserve VIP rooms through this site. See you all this Sat. July 15th. Get there early!!! Love, Cleo

Apollo, How does it feel to be obsolete? What will you do now that this whole "Glam" thing is not cool anymore? As a matter of fact, Where did you come from? I have been around for quite a while and have never even heard of you till your fake ass started showing up around the trendy clubs. I have you so fucking dialed. You are not a real life groupie. you work at a watch shop! You fake. Unlike you, I really live the life. I dont have a job and don't need one. I live a life you could only wish. Constant chicks, coke etc. I don't even go to clubs anymore, I don't need to. Maybe you should realize who you really are and go back there. Stop fooling people. You are benefiting no one. You have no talents or anything. Your hero may be Andy Warhol, but Warhol had talent. You just fake it. I don't wish to be you and I hope that you and everybody will realize who you really are.

AT LEAST HE IS TRYING TO KEEP THE ROCK AND ROLL LIFESTYLE ALIVE EVEN IF IT IS ONE GOOFY HORRIBLE CLICHE..AT LEAST HE IS INVOLVED..AT LEAST HE IS DOING SOMETHING..AT LEAST HE IS TRYING TO PERPETUATE THE IMAGE THAT A SCENE EXISTS... AT LEAST HE LOVES SOME COOL GROUPS [DOLLS,KISS,RASBERRIES,HALEN,].WHO CARES IF HE MIGHT WORK IN A WATCH SHOP OR WHEREVER THAT OTHER PERSON SAID..AT NIGHT APOLLO ENJOYS HIMSELF.THAT IS WHAT MATTERS...FUCK, I'M A SCHOOL TEACHER DURING THE DAY;HOWEVER, WHEN I GET ON STAGE I AM TRANSFORMED INTO THE ABSOLUTE BEST FRONTMAN THIS CITY HAS SEEN SINCE AXL, MORRISON,DARBY, AND PERRY FARRELL.NO ONE EVEN COMES CLOSE....IT IS ALL ABOUT THE TRANSFORMATION...IT IS ALL ABOUT WHAT U BECOME AND WHAT U ENJOY.WHO CARES IF APOLLO IS INFLUENCED BY ANDY WARHOL ..THAT IS MUCH BETTER THAN BEING INFLUENCED BY ANDY ROONEY....LATE, JET YOUR NOT SO HUMBLE MOBORATOR

I'm so sick of hearing people bag on Apollo. He does more for our scene then any one in this town. He works hard so that the rest of us can really have a "nightlfe". Just think of what life was like 10 years ago. Everything sucked. Everyone was a fucking grunge rocker with flannel shirts on with cut off shorts! Fuck That! Apollo changed everything. We owe him so much. He single handedly brought rock back to L.A. He changed fashion, art, and music! He is the Andy Warhol of our generation! Nobody appreciated Andy Warhol when he was around. Everyone bagged on him too and said he was a talent less, self-serving freak. That is what Apollo is! And none of you have the guts to be like him! Apollo, WE love you and will forever be thankful for you! See ya at the clubs!!

ATTENTION KATHY K. who's e-mail address is Hot Slut.com.....nice! (In reference to Apollo Starr). You say you are sick of people bagging on Apollo(nice name), because he has contributed so much to the scene. First...What has he contributed? Second....What scene are you speaking of? You also say that It is better now than 10 yrs ago. Well..maybe you were listening to grunge, and wearing flannel, but the shows , and clubs,and friends I associated with had no part in that. One more thing, Nobody ever compared Apollo to Andy except Apollo. Nobody that had brains bagged on Warhol, you better go back and do your homework sweetie He was a legend in his own time.

Oh, Lonley Boy, you've returned! You're so bitter, and bored! And since you remember going to clubs more than 10 years ago, you're probably balding!! Anyway, how about giving yourself some press, since you always give it to Apollo. What is your story. What bands are "cool". What people are "cool" to be with? You really seem to know what you're talking about. Please enlighten us with your knowledge! We're dying to know! Please correct us! We must all be wrong compared to you! You are our savior! Speak to us chosen one! We are anticipating your big mouth to give us the key to cool!!

***LISTEN UP LONELY BOY* Just wanted you to know that I'm in the process of installing new message boards and this current guestbook DOES record your IP address, so go ahead- get yer kicks while they last... 'Cuz when the new boards are up- yer ass is *SO BANNED*... Hate to be like that, but it's pretty obvious that you have nothing but crap to contribute to our community... As far as Apollo is concerned- I love the guy... He's funny and he's charming as can be... And he works his ass off writing for HM, even though he doesn't get paid to do it... And at the VERY LEAST- he has the balls not to hide his identity, quite unlike some people we know... If there ain't no scene here (and I hate to break it to ya, but I think the guesbook is plenty proof that there is), then go find your "scene" elsewhere... Now FUCK OFF and save some space for the people that DO have something to contribute here...**

Well...Well Well... as it seems Make Up was geared up to its fine frivolous humour and decadence. But not a damn Synth oriented song was played...we need the new wave to remerge. I swear no one truly can fathom that the glamorous fascades of today dont have to be laced to Bowie, or Cockney Rebel. Its about Geri Halliwell, who first started her career as a normal girl..Bowie started his career as a normal girl...then Geri became Ginger Spice(a drag queen)...Bowie became a drag queen(Ziggy-Aladin) then Geri became reputedly media refined...as did Bowie so you see pop music like those Duran Duran, even Kylie Minogue have the their glitter without being guitar god centralized. Kinda of makes you think? But hey Kembra performing at Mkae Up was amazing!Hail Hail the Glitzy Macabre of Electronics!!!!

Ladies and Gentlemen, Boys and Girls, and Freaks of All Ages... This Thursday, August 10, marks Antiquity's 6 month anniversary. In celebration of this event, we wish to cordially invite you to attend a spectacular extravaganza. Through the courtesy of Ted Shred, renowned fire manipulator and escape artist, the Vamphear Circus will perform throughout the night for you, our honored patrons. This compilation of the bizzare and unusual will include feats of David Markham "Miracle Man" sword swallower and strong man beyond compare, "Duvallier and Scarlett - the Impenetrable Duo" with their elegant rendition of the bed of nails, and the hypnotic "Flame" - the tatoored serpant sorceress. Count Smokula - ring master extraordinaire - will be our host for these enticing exhibitions. As a special treat, lovely representatives from Tanqueray Gin will be passing out 100 discount drink tickets to our assembly, along with other promotional material. So, drink all you want - we'll make more! In order to capture the Vamphear Circus for posterity, Trama Films will be filming at Antiquity for the BBC, and Mars Media will also be represented. With this in mind, let your attire be at the whim of your finest and darkest imagination. Admission for this special event will be \$8 all evening. Listen to KXLU Radio 88.1 for limited free passes. In anticipation of welcoming you to our anniversary celebration, we part with the words of the world-famous Ringling Brothers, Barnum & Bailey Circus: "May all your days be circus days..."

I just wanted to thank everyone who was at my birthday parties....It made me feel great that my return to the scene was the best decision I ever made. I also want to thank my staff that are the best in town! And of course to my special guest DJ Apollo who I love. One more thank you must go out to the Cult who have been my friends for many years and really made a girl's birthday wish come true. One more thank you to Rick Canney their tour mgr...what a great guy...he really made things happen and got things done!!! One more thing....thanks everyone for not making me feel stupid when I got up and sang with Lo-Ball....I was really scared believe it or not and the girls were so sweet to let me have my "60 seconds" in the spotlight....thank you all and I hope to keep bringing all of you the greatest bands....love to you all...Dayle

Ewwww, can people stop bashing Apollo. He is truly one of the most genuine people like Vida Deville in this realm laced full enfantes terrible, Negativity is so last decade like all the music Hollywood boasts about. Face it we are in the 21 st century not the 20th so end the fantasy. I am so tired of glam this and metal that. Its all about propagation of the classes. Meet your wants wityhout becoming some sad Sunset Blvd bound cliché. No one is willing to experieiment, oui. Life here is all based on the same rock hard and be a well rounded scence debutante at age 30 something. Thats fine and all but there should be a refuge for those who love Britney as well as Bowie. In fact pop stardom should always be considered high like as in Icon like not some bourgeoisie drug reference. Adieu...

ha ha. this site(and especially this guestbook) is really funny. you big buncha meanies are so cute going back and forth. i think i actually read the **WHOLE THING**. as someone whose seen enough of this scene to know, let me just say this...part of the beauty of this scene is how exquisitely fake a lot of it is. i mean, if you can't be someone why not fucking fake it? why else does a skinny brown boy from north carolina buy a lulu brooks wig and fishnet tights to take the name Zoey Lame(Pronounced LaMay)? i really need to learn how to do that accent thing. :(i mean **FUCKING DUH**, the scene is here to give us something to do. to make life more interesting. and to provide us all with scandalous stories to share with each other in middle age. this doesn't mean you should be a wicked backstabbing fucking pansy becuz you don't think yr cool enough(and it is you thinking this and you know it) to move in certain circles. i mean, be yrself or be someone better. be outrageous. be wild. this scene can be glamorous and you'll get a lot more out of it by being a decent person. it's fun. it's harmless and i applaud those people who have the courage to dedicate their lives to this kind of excess becuz they're the ones who make life more like fun. and don't cry cuz you can't get on their guest list. there's a thousand other people in the same boat, baby. but anyhow, keep up the good work people. and you self loathing losers, be nice to apollo. he's a friend of a friend and R+R Rehab is hilarious. you all only wish your lives could be so scandalous. love and rockets to all! **JACKIE CURTIS FOREVER.**
